WPC to “Make a Difference” with National Safety Month

North Charleston, SC – WPC, a leading corporate citizen of North Charleston, SC and a member of the National Safety Council (NSC), makes a commitment to employee safety by partnering in the NSC’s June observance of National Safety Month, entitled *Make a Difference*.

Throughout the month, WPC will offer educational activities and information to underscore how individuals can *Make a Difference* in keeping themselves – and others – safe, in the workplace, on the road, and in their homes and communities.

“WPC is highly committed to safety. Recognizing National Safety Month is just one of the many ways in which WPC acknowledges the importance of employee safety” says Reg Christopher, President of WPC. “By encouraging our employees to participate in safety activities, we hope that safety will become a top of mind awareness for them.”

After years of decline, the rate of unintentional injuries and deaths in the United States has risen to new and unacceptable levels. Motor vehicle collisions, poisoning from unintentional drug overdoses, and falls remain the leading causes of preventable death.

This year’s National Safety Month observance will focus on the prevention of unintentional death and injury in some of the areas with the greatest public risk:

- Week 1, June 2-6 Emergency Preparedness
- Week 2, June 9-13 Distracted Driving
- Week 3, June 16-20 Poisoning Prevention (drug overdoses)
- Week 4, June 23-27 Falls Prevention

The National Safety Council is a nonprofit, nongovernmental, international public service organization dedicated to educating and influencing people to prevent accidental injuries and deaths. Members of the NSC include more than 50,000 businesses, labor organizations, schools, public agencies, private groups and individuals. Founded in 1913 and chartered by the U.S. Congress in 1953, the primary focus of the NSC is promoting safety and health in the workplace, in transportation, and in homes and communities. More information is available at the Council’s Web site, NSC.org.

Founded in 1993, WPC has built its reputation on providing a full range of geotechnical, environmental, and construction monitoring and testing services tailored to meet the individual needs of our clients. WPC has offices in Charleston, SC; Myrtle Beach, SC;

Columbia, SC; Charlotte, NC; Savannah, GA; and Jacksonville, FL. For more information, visit www.wpceng.com
